STATE	WAR	NAVY	JUSTICE

1. Ing. Grossfuss, inventor of the MP 42 Machine Carbine, who was until recently at Suhl in Thuringia, has now left for the U.S.S.R.
2. Grossfuss has invented a new machine carbine, and it has been tested at the firm Gustloff-Werke in Suhl, which is now called Berlin Suhlner Waffenwerke. This carbine is manufactured from tin-plate, scrap tin, and any tin waste (Abfalle). Theoretically, it has a very high firing rate; the final tests took place sometime in October.
